Wirthmor Waists

That Have so Much to Commend Them

—They're timely and tempting, appropriate and appealing for the bright balmy days of late Spring and Summer.

—They're fashioned of quality fabrics, carefully seamed and stitched so as to withstand repeated tubbings.

—They're so extremely moderately priced that for a very limited expenditure you can have a crisp, cool clean Blouse for every day in the week.

—If you have never worn a Wirthmor, then we urge that you make their acquaintance tomorrow.

EIGHTY AMERICANS PROBABLY KILLED

EIGHTY REPORTED MISSING
AFTER FIRE AND EXPLOSION
OF AMMUNITION.

By the Associated Press

LONDON, May 29.—As a result of a fire in a building occupied by American troops in the Coblenz district and explosion of a munition dump yesterday 80 men are missing, according to a Cologne dispatch to the Exchange Telegraph Co.

The foregoing report, bears a similarity to one received from London Tuesday reporting the destruction by fire of a building used as a barracks on the Rhine opposite Mannheim causing the death of forty soldiers and injury of one hundred. This dispatch also was based on a German report by way of Copenhagen to a London news agency. The fire occurred at Ludwig-Shafen which is in the French area of occupation.

WITH CONFERENCE.

By the Associated Press

BERLIN, May 29.—The semi-official Wolff Bureau is circulating a story under an Amsterdam date which asserts that the United States is "becoming increasingly dissatisfied with developments at Versailles" and that there is "unmistakable strengthening of the inclination for an understanding with Germany through a modification of the peace terms."

WILL RAISE FUND BY SUBSCRIPTION

DEMOCRATIC COMMITTEE WILL
APPEAL TO RANK AND FILE
FOR CAMPAIGN FUND.

By the Associated Press

CHICAGO, May 29.—Funds for conducting the Democratic national campaign in 1920 will be raised by popular subscription and it is expected the contributions will be received from 1,500,000 persons. Wilbur E. Marsh of Iowa, treasurer of the Democratic National Committee, made this statement today in addressing that body on the subject of party finances in the second meeting of the two day session held here. Methods of political work, closer co-operation between various departments of party organization and woman's work in politics were the subjects discussed today.

ITALY MAY COMPROMISE

FIUME WILL BE INDEPENDENT.
ITALY GETS ISLANDS ON
DALMATIAN COAST.

By the Associated Press

PARIS, May 29.—It was stated in high circles this morning that a settlement of the Adriatic question now is a certainty as a result of the negotiations of yesterday and last evening. Under this settlement Fiume becomes an independent city. The Italians will receive certain of Dalmatian islands but it is understood they will not get Zera or Sebenico.

GERMANS SUBMIT COUNTER PROPOSALS

By the Associated Press

PARIS, May 29.—Counter proposals formulated by the German delegation at Versailles have been delivered to the French authorities. The proposals probably will go before the Council of Four of the peace conference at this morning's session.

AUSTRIAN TREATY IS CONSIDERED

By the Associated Press

PARIS, May 29.—The peace conference convened in secret plenary session at 3 o'clock this afternoon to hear the terms of the treaty to be handed to the Austrian delegation at St. Germain, Andre Tardieu, of the French delegation, read a summary of the terms.

New Mexico Oil Boom.

Harry B. Gutches, who has just returned from a week's trip to Portales, New Mexico, reports great activity in that State. Numerous rigs are being erected and there will be many wells drilled during the coming summer.

Geologists predict that the same oil sands which produce the big gushers in Texas will be found in New Mexico. The entire Eastern section of the State has been leased by prominent Oklahoma operators and high prices are quoted for acrea anywhere within ten miles of drilling locations. A company backed by fifty Ada parties is arranging to drill a deep test well near Portales, N. M., work to begin immediately.

Plane Damaged.

The recruiting aviators had a bit of bad luck this morning, dagging one of the wings while landing. They have wired to the camp at Fort Worth for instructions as to what to do next. Several recruits are ready to be transported to camp for enlistment.

Final Sparks from The A. P. Wires

PARIS, May 29.—It is reported that the presentation of peace terms to the Austrian peace delegation which had been planned for Friday noon, has been postponed until Monday.

WOUNDED SOLDIER HOME ON FURLOUGH

Lloyd A. Smith, son of G. W. Smith, Portland Park, arrived home yesterday from the hospital at Camp Pike to enjoy a few days furlough. Mr. Smith was eleven months in France with the 28th Division, went over the top six times, and was cited for distinguished service. He received wounds in the head, one arm and one knee and was gassed in one battle. He has been for some time in the hospital at Camp Pike, and with the continuation of careful treatment he expects to be fully recovered within three months.

U. S. DEPARTMENT OF LABOR

Advertising will develop the dormant demand for the goods on the shelves of merchants and in the warehouses of manufacturers.

Mr. Merchant and Mr. Manufacturer, the public wants and needs the things you have to sell and is willing to pay for them.

Tell your story through the medium of well prepared advertising. Talk to thousands through your local press instead of standing idly by and waiting for something to "turn up."

Now, more than ever before, advertising offers greater assurance of profitable returns to live, wide-awake, progressive merchants and manufacturers who employ it.

The message of the Department of Labor is: Advertise—increase your advertising—so that selling costs may be reduced and ultimately prices will follow in reduction.

CONGRESS TO DECIDE ON INDUSTRIAL TRAINING

Washington, D. C. May 29—One of the many questions which the new congress is being called on to decide is whether or not the U. S. Training Service, a branch of the Department of Labor shall continue after July 1, 1919. The Service was instituted during the war to enable industry to help meet the great emergency which arose because of the lack of skilled labor. Now that the war is over and the soldiers are returning to industry some congressmen say that the Training Service should be discontinued; others favor granting the appropriation asked by Secretary of Labor Wilson.

The argument of the supporters of the Training Service is that this country, like England, must recognize the immense benefit which training can be to industry in peace as well as in war times. Steps have been taken in England to supply that country's industries with workers thoroughly trained in their respective tasks. The U. S. Training Service contends that without a body of workers better trained than before the war, America will be seriously handicapped in meeting foreign competition, and in giving its workers the opportunity for advancement which they are demanding. The Service quotes production experts to show that the majority of industrial employees, having had no real chance to be thoroughly trained, are scarcely 50 per cent efficient. This places a tremendous unnecessary handicap on both employees and the employer. Training departments, such as the Service helps organize, teach the workers the best way of performing their tasks and give them a chance to learn while earning.

The U. S. Training Service does not conduct training itself but its work has been to assist manufacturers in installing training departments and to supply them with carefully prepared courses of instruction. It has served as a clearing house for the industries of the country and through its experts has prepared training courses embodying the best practices obtaining in the various occupations covered. If congress decides to grant the appropriation asked, similar training courses will be prepared for a large number of other industries.

BUMPER WHEAT CROP BEING CUT IN TEXAS

By the Associated Press

DALLAS, Texas, May 29.—The two million acres of Texas land sown in wheat last autumn are expected to produce a crop of 40,000,000 bushels, five times larger than any previous Texas wheat crop. The Texas growers, guaranteed a price of \$2.28 a bushel, figure a total return of \$91,000,000 in round figures, with a \$10,000,000 reduction as the approximate cost of production.

Districts of west Texas and the Panhandle belt are recruiting a huge army for harvesting the crop within the next sixty days. For the first time in three years the drought-stricken sections of west Texas have use for reapers.

The reapers have already started on the southern edge of the grain belt and will continue moving north, county by county and state by state, until they reach Canada next fall.

Many districts never before used for growing wheat were sown last fall, including tracts that formerly grew cotton.

Wheat statisticians have figured that the Texas crop, reduced to bread, would make 1,120,000,000 loaves, or 11,200,000,000 sandwiches.

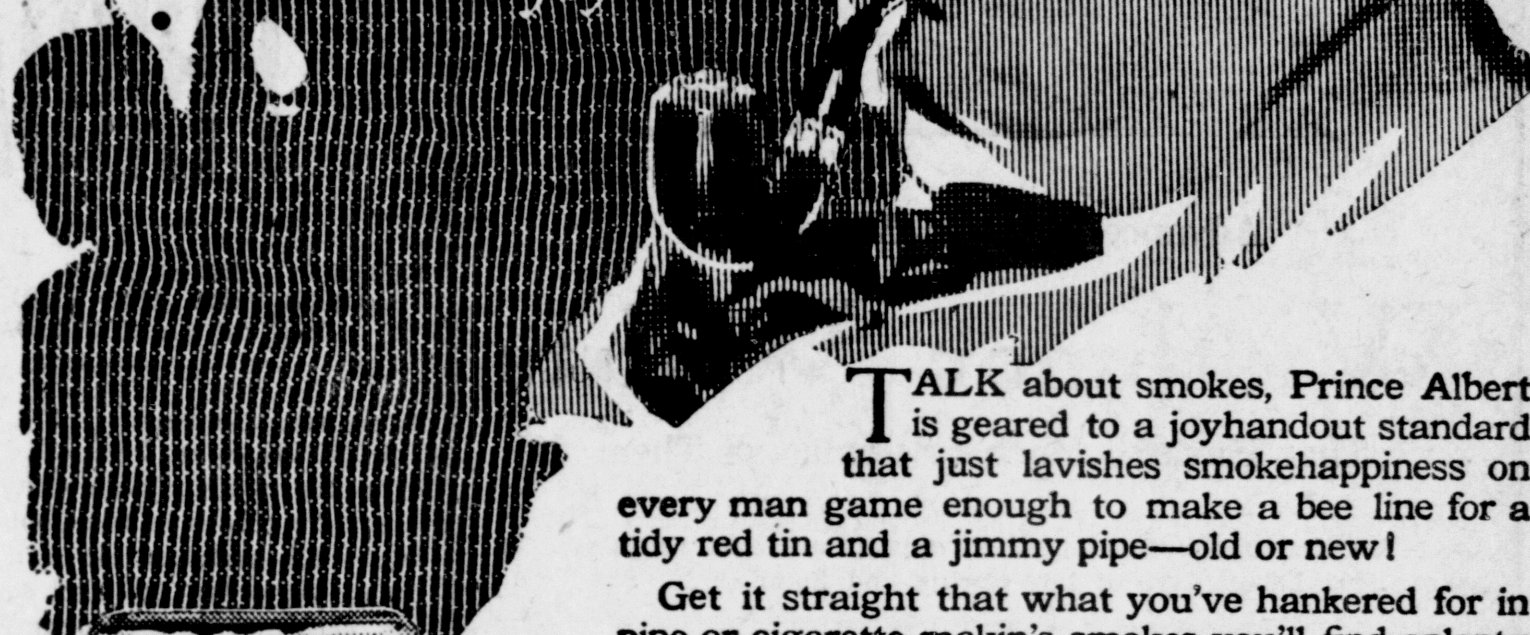

The world's annual production of mercury is about 4,000 metric tons, of which Spain contributes about 1,400 tons, Italy nearly 1,000 tons, Austria-Hungary 800 tons and the United States about 750 tons. England's pre-war consumption was over 600 tons.

FRIENDS AND PATRONS:

I told you a few of my troubles yesterday and you started to reach for your purse. But what I want to do is to give you more value for the price, and here it is in a nut shell. It costs a lot of money to keep a delivery outfit on the streets to serve you, not only for the wages of the men who operate it, but the feed of the teams, the upkeep of the equipment, the stable help and maintenance, the checkers and clerks to keep it going, and the cost of idle days between seasons.

IT COSTS FROM 6 CENTS TO 10 CENTS TO DELIVER TO YOUR HOUSE A NICKLE'S WORTH OF ICE FOR THE SERVICE ALONE, COUNTING NOTHING FOR THE VALUE OF THE ICE.

On such quantities I do not get anything for the ice, and on 5 cent deliveries do not get back the cost of the delivery, while you in turn are not getting a sufficient quantity to be of real service. What is the remedy?

THE RAPID GROWTH OF STANFIELD'S MEAT BUSINESS

- A little more than a year ago we added to our Grocery Store a first class Market with facilities, as we thought at that time, to take care of all meat trade that could possibly come our way.
- Now we are adding to our equipment another refrigerator, 40 per cent larger than our present one, thus more than doubling our storage capacity.
- This unusual increase in our business is due to the fact that we sell ONLY FIRST-CLASS STUFF, and serve the customer TO SUIT HIS CONVENIENCE—not ours.
- We invite you to try our Market service. We know you'll be satisfied.
- Just say to Lady Central: "402, please."

FAMOUS PEACE TREATIES By H. IRVING KING

TREATY OF PARIS, 1763.

A Peace That Paved the Way for the American Revolution.

On February 10, 1763, there was signed one of the most momentous treaties ever concluded in the history of the world; for it not only decided whether the Latin or the Anglo-Saxon race should be supreme in North America, not only deposed France from her position of a colonial power of the first rank, but it ended a war which had taught the American colonies to think, act and feel for themselves in terms of distinctive nationality, had laid the foundations for the American Revolution and developed the genius of George Washington.

Unlike the other wars which had disturbed the American colonies and called upon the colonists to shed their blood in backing up some European quarrel in which they had no interest, this war was begun in the American wilds over American questions, and its main theater of action was American soil. It is known in America as the French and Indian war.

French and English Quarrel.

Scarcely was the ink dried on the Treaty of Aix-la-Chapelle when the French and English began to quarrel over the boundaries of that indefinite region of "Arcadia," which had been ceded to England by the Treaty of Utrecht. On the Ohio a land company claimed under a charter from George II vast stretches of land which the French claimed lay in French territory. The governor of Canada sent a military force from Montreal to drive out the English settlers and establish posts. The governor of Virginia decided to send a "person of distinction" to inquire into this, and selected George Washington, then twenty-one years of age. The French commandant declared he would hold his ground.

The next spring Washington went out with an expedition to build a fort at the junction of the Allegheny and Monongahela rivers where now is Pittsburgh. Reaching the Great Meadows he learned of the approach of a French force and attacked it,

killing and taking prisoners almost the entire party. The ball was opened and Washington had opened it.

It is not necessary to go over the history of the French and Indian war which was closed by the treaty of Paris nine years later. Every school-boy knows of Braddock's defeat and Wolf's victory. Washington, as an officer of the Virginia militia and as aid to Braddock, learned the art of war by experience and so distinguished himself that his name was known in Europe. Quebec fell in September of 1759, Montreal surrendered in 1760, and Canada fell into the power of the English. Spain joined France in 1761 and a British fleet and army, to which New York and New England contributed, captured Havana the next year. The commerce of France was almost swept from the seas by British cruisers and Spain was not able to carry on her commerce with her American colonies.

British Proposed Peace.

The British proposed a peace. Their terms were hard but Cholsuel, the French minister, said: "What can we do? The English are drunk with success and we are not in a condition to abase their pride."

Preliminaries were signed at Paris on November 3 and a definite treaty on February 10 the next year. To England was ceded, besides islands in the West Indies, Canada, Louisiana as far west as the Mississippi, but excluding New Orleans and the territory immediately around it. New Orleans and Louisiana west of the Mississippi France gave to Spain for her aid. Of all her North American possessions France retained only the little islands of Miquelon and St. Pierre and a right in the fisheries. Havana was given up to Spain by England in return for Florida.

Quilzot says: "The humiliation was deep, the loss irreparable. But the hour was coming for that supreme struggle which should give to the world the United States of America."

GAILEY.

This community was visited by a heavy rainfall this week, which did great damage to our crops.

Mrs. Bessie Willoughby is some better at this writing. She visited home Thursday, returning to Grandpa Willoughby's home Sunday.

Sunday School was quite a success Sunday. We had a good interesting sermon, given by Rev. Osola.

Miss Bertha Bray and Miss Jewel Gray visited Mrs. A. J. Hughes Sunday.

Quite a fishing trip was made Saturday by Mrs. Light, Mr. and Mrs. M. E. Bray, Bertha, Audra and Johnny Bray and Mr. and Mrs. Gadberr. Such luck as they had during the heavy rainfall. Miss Bertha brought back the prize fish of 15 pounds.

Miss Mary Griggins is visiting at the Brewster home this week.

Quite a few Gailey people attended the singing convention at Summers Chapel and reported real good singing and the dinner excellent.

Randolph Deathridge has sold his farm and is to leave this community this coming week.

Misses Audra Bray and Grace Gray spent Sunday noon at Mrs. Graham's at Chism.

A. J. Hughes, Clyde Bray, R. Deathridge and W. S. Bray made a business trip to Ada Monday.

Will Barnes has purchased a new Ford car.

L. C. Gray and family spent Sunday with Calvin.

Mr. Odom spent Sunday afternoon at Mr. Hughes'.

The school is very busy now taking the examinations. We wish them all success.

Mrs. Buckholtz will leave for Ada Saturday where she will attend the spring and summer term of the E. C. S. N. We wish her good luck.

Will Barnes, Miss Irene Hutto, and Willie Barnhill spent a very pleasant afternoon at Claud Gray's home Sunday.

Mrs. Essie Deathridge and Mrs. Ettie Gray visited Miss Francis Willis Monday.

Mr. and Mrs. Goldberry visited W. S. Bray Sunday.

Oscar Rankin's baby is very ill at this writing.

Leonard Willoughby and wife

visited A. Willoughby Saturday and Sunday.

Mrs. Light is visiting at her son's home this week.

Misses Audra and Bertha Bray, Grace and Jewel Gray visited Mrs. Fox Sunday evening.

Mrs. Fox received word that her brother, Lee Thomas, has received his discharge from the U. S. navy, and she is expecting him to pay her a visit most any time.

Mrs. Newby was visiting Mrs. Ida Bray Sunday.

Miss Maudie Ward spent Saturday night with Miss Willie Graham. Come on Worstell, We like to read your notes.

A torpid liver is a heavy handicap to a working man. It robs him of strength, energy and mental alertness. To remove the burden the proper remedy is Prickly Ash Bitters. It is a fine liver, stomach and bowel medicine. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents.—Adv.

Your Battery's Different

There is one part of your new car that is different from all the rest—your battery.

For storage batteries are chemical—not mechanical.

The time to begin taking care of that battery is the first day that you get your new car. If you do this, your battery will not only last longer, but it will give you better service as long as it is in use.

So when you buy your new car, the very first thing to do is to come to us for full instructions. We will register your battery, and at the same time will be glad to give you a copy of the booklet, "Willard Service and You."

We distill our own water. Battery Inspection Free.

A MESSAGE ABOUT ADVERTISING

FROM THE
U. S. DEPARTMENT OF LABOR

If you are not advertising, then advertise because it saves money for you and it reduces the price to the consumer.

Advertising prevents profiteering. It insures honest profits and makes them permanent.

The message of the U. S. Department of Labor to merchants and manufacturers and to all progressive American business men is to advertise.

Tell the public about YOUR goods. The consumer has plenty of money. He is willing to spend it and we want him to spend it on American-made products. The easiest, quickest, and most economical way in which this can be accomplished is by advertising.

Start your campaign right now.

The German peace delegation in-
sists that having rid herself of the
kaiser Germany is entitled to have
the past blotted out and given bet-
ter terms of peace. However, the
leopard is as spotted as ever and
shows no inclination to attempt to
change these spots.

Somebody who has been investi-
gating makes the announcement that
the price of the new potato
crop will be firm. We would like
to know if the price of potatoes has
been anything but firm for the past
year or two. If so, our grocer has
overlooked it. We grow train loads
of potatoes in the Arkansas valley
and ship them north, where they
are delivered to folks at "firm"
prices. Then we ship car loads of
potatoes back from Colorado, Mich-
igan and Wisconsin and when they
get here, believe us, there is nothing
less "firm" than the price on
them.—Muskogee Times-Democrat.

Some idea of the growth of Ada
may be had from the list of about
fifty teachers employed for the com-
ing year in the public schools.
When we came to Ada a little more
than twelve years ago sixteen teach-
ers were employed. There were two
buildings at that time, Irving on
the north side and a frame build-
ing near the site of the present
high school building. There are
now four buildings and another in
process of construction and Irving
was considerably enlarged a few
years ago. When the high school
and Willard were built and Irving
enlarged the school board went con-
siderably ahead of the needs of the
district and thought the problem of
room had been solved for many
years, but so rapidly has the popu-
lation increased that it has been
necessary to build two more. Be-
sides this quite a number attend
the Normal, thereby making that
much more room in the public
schools.

Our sympathy is with Henry
Ford in the libel suit against the
Chicago Tribune which in a vicious
editorial branded him as an an-
archist and a good many more re-
prehensible things that no red
blooded American will stand for.
The Tribune for years was one
of the foulest detractors of the
South and having proved itself too
contemptible for credence in that
instance, we take it for granted
that it did not hesitate to attack
Ford on charges invented by itself
and with no other motive than
just to gratify its vicious nature.
We have not always agreed with
Ford's ideas, but no newspaper
should be permitted to slander a
man and attempt to besmirch his
reputation when there is no founda-
tion in fact for such a course of
lying and misrepresentation. Ordi-
narily our sympathies would lie
with the paper, for in the majority
of instances the man who claims
to be libelled deserves even more
than he got, but this time the case
is reversed, the Tribune's former
record condemning it beforehand.

The State Press

McAlester News-Capital: The
fact that Captain Harry Hawker
returned in time to hear the world
eulogizing him should, not detract
one iota from the unstinted praise
that was his. Every single tribute
paid him is due now just the same
as it was when the aviator was be-
lieved to be lost. The keen disap-
pointment that Hawker must feel
at that failure to reach their ap-
pointed goal is surely tempered by
the international acclaim of his
name as a martyr. The tribute that
King George paid Hawker when he
said, "I feel that the nation has lost
one of its most able and daring
pilots and that he sacrificed his life
for the fame and honor of British
flying," should be changed but lit-
tle. If it could read, "I feel that
the nation has recovered one of its
most able and daring pilots and that

he has returned to add to the fame
and honor of British flying," it
would be just as fitting and of
course a bit more appropriate." Let's
not be morbidly and sensationally
inclined to say, "Oh chucks, he's
been found has he?"

Ponca City News: Whether we
will it or not, United States Senator
Borah is right in stating that the
League of Nations will be a party
measure. Borah not only says that
the League of Nations will be a party
measure, but he is urging his
party, the Republican, to oppose the
League of Nations as a party measure.
The League of Nations is the
biggest political issue in the world.
It will, in this nation, be the big-
gest political issue of the decade,
and the American people may be
torn asunder in the matter of their
party affiliations. The League of
Nations may cause a new party
alignment in the nation. Add every-
person should familiarize himself
with the League of Nations and its
purposes.

Daily Ardmoreite: Senator Jim
Reed of Kansas City is terribly wor-
ried lest the League of Nations put
the white race under the rule of
the blacks, yellows and coffee-col-
ors of the species. It seems not to
have occurred to Senator Jim's men-
tal apparatus that the white race as
represented by Uncle Sam's section
thereof possesses "Lewisite," an
agent of benevolent assimilation
which is accredited by scientists
with the potentiality of wiping off
the face of the earth any race of
people which may show signs of
trying to rule the other races of
people.

LIONS OF OKLAHOMA GATHER AT MUSKOGEE

Muskogee, Okla., May 29.—No
less than 200 people sat down to
the lunch table at the Severs at
noon, at the first general gather-
ing of those in attendance at the
first annual convention of the Lions
club of Oklahoma, meeting here
Wednesday.

While attendance from other cit-
ies was not as large as hoped, what-
ever the convention lacked in num-
bers, it made up in enthusiasm, and
the success of this initial gathering
insures a heavier attendance at the
next meeting which will go to
either Okmulgee or Ardmore.

Several delegations of Lions from
other cities of the state were pre-
vented from coming by unforeseen
circumstances, but the men who did
come were sufficient indication of
the class of citizenship who have
embraced Lionism in its brief de-
velopment in this state.

A state organization of Lion's
clubs is to be formed at an after-
noon session at the Severs, at which
A. V. Davenport of Tulsa, district
governor of Oklahoma, will preside.
At that meeting also next year's
meeting place will be chosen. No
cities are in the race except Ok-
mulgee and Ardmore and the form-
er has the largest representation
here.

WHY OKLAHOMA IS A GOOD STATE FOR BOTH CAPITAL AND LABOR.

Here's an authentic snapshot in words and fig-
ures of Oklahoma's vast wealth in oil as shown by
the records in the oil tax collection department of
the office of the state auditor:

Production in Oklahoma during 1918 amount-
ed to 84,000,000 barrels with a valuation of ap-
proximately \$168,000,000.

220,000 Barrels Daily.

The average daily production the year round
is approximately 220,000 barrels.

During the years 1916-17-18 the state collect-
ed about \$12,000,000 under the 3 per cent gross
production tax on oil.

The Prairie Oil and Gas company, with head-
quarters in Independence, Kansas, has the largest
production of any company operating in the Okla-
homa fields. The Prairie has 2,867 oil wells and
1,963 gas wells. Total value of the Prairie pro-
duction for the past three years was approximate-
ly \$30,000,000.

Oil in Thirty Counties.

There are thirty counties—almost half the
counties of the state—in which oil and gas is pro-
duced.

Oklahoma has seventy-nine refineries with a
combined capacity of 233,300 barrels daily, which
is more than the average daily production of the
state

ELSIE FERGUSON IS GIRL REPORTER IN "HIS PARISIAN WIFE"

Beautiful Artcraft Star Has Most
Congenial Role in New
Photoplay.

Elsie Ferguson, the beautiful Art-
craft star, will be seen as a Paris-
ian newspaper reporter in her lat-
est photoplay, "His Parisian Wife"
which will be shown at the Ameri-
can theatre today. This is a deli-
cious story adapted by Eve Unsell
and the picture was directed with high-
ly gratifying results by Emile Chau-
tard.

Miss Ferguson plays the part of
Fauvette, a girl reporter in Paris
who weds Martin Wesley, a Boston
lawyer, after a brief courtship. When
Wesley takes his bride to his New
England home, she is received with
coldness by his puritanical parents,
and they proceed to make her life
miserable. They succeed in convinc-
ing Wesley that his wife must have
had "a past," and he treats her
with studied cruelty.

Fauvette finally goes to New
York, writes a novel and wins fame
as an author. Wesley lives a lone-
ly life, but when his jealousy is
aroused, his love for Fauvette re-
turns and he finally effects a recon-
ciliation which results in their hap-
py reunion. Miss Ferguson is said
to have a role of tremendous dra-
matic power in Fauvette and which
reveals her in a new and deligh-
tful creation.

David Powell plays opposite to
Miss Ferguson. Others in the su-
perb support include Courtney Foote
Frank Losee, Cora Williams, Capt.
Charles and Louis Brizel.

RED CROSS FIGHTS DISEASE IN MACEDONIA

KAVALLA, Macedonia, April 5.—
(By Mail)—A desperate fight is now
being waged by Greek, British, Amer-
ican, French Red Cross and Unit-
ed States Physicians to confine the
outbreak of typhus raging in Mace-
donia to its breeding ground and
to prevent its spread in Europe and
America. An expedition of Ameri-
can doctors and nurses has been
rushed to Macedonia to combat the
disease.

Red Cross workers in Macedonia
are fighting conditions of a most
discouraging nature. The Struma
valley is low, swampy and malarial.
Here thousands of British and Al-
lied soldiers died of disease during
the war. The road from Kavalla to
Drama to serres is a morass of
fathomless mud.

An American army doctor who
has waded through Flanders writes:
"Today we carry our supplies of
medicines and food to distant vil-
lages through roads several feet
deep in mud. Rains are frequent and
heavy and the fogs penetrate our
bones. Red Cross women riding the
mountain trails, swimming their
horses across rivers, plodding
through mud, braving typhus at ev-

er yturn are carrying on their work
with the spirit of the pioneer wo-
men of our own America.

"The filth and stench of the so-
called cities, heaps of ruins after
six years of war, are beyond de-
scription. The main street in Pravi
and the highway from the railway
station in Drama to the public
square surpass in offensiveness any-
thing I have ever seen.

"There is no wood for heating
here and no stoves. The Bulgars
have swept the country absolutely
bare. Only the bare walls of the
buildings in a hundred villages re-
main. All water must be boiled."

The typhus dead are removed
from the tobacco warehouses at
Kavalla in groups each day.

MISS CORA LEE HOPPER

MARRIED AT SHERMAN

At the early hour of 6 a. m. Mon-
day morning Vincent Jones and Miss
Cora Lee Hopper were united in
marriage at St. Mary's Catholic
church on South Travis street, Fath-
er Maher, priest of that organiza-
tion, officiating.

In the presence of only a few im-
mediate relatives and intimate
friends of the contracting parties,
the solemn ritual was performed.

The bride was charming in her
gown of pure white, and carried a
lovely bouquet of bride's roses.

The young people will make their
home at 700 East Pacific street,
this city, the groom being in the
employ of Texas Electric Co., as
cashier. He is the son of Mr. and
Mrs. Oscar Jones, and has made his
home in Sherman all his life, save
for two years spent with the U. S.
army. His bride came to our city
from the north, and is a skilled
trained nurse, being graduated from
St. Vincent's Sanitarium.

Congratulations are of course the
lot of the young people in plenty
just now, and many a good wish
goes with them in their new life.—
Sherman Democrat.

Carroll-Marks.

Mr. J. O. Carroll and Miss Geo-
riana Marks were married Wednes-
day evening at 9 o'clock at the
Methodist parsonage, Rev. G. W.
Beck performing the ceremony.

Both young people are well known
here and the News joins their
many friends in wishing them a
happy voyage on the sea of mat-
rimony.

Let a Want Ad get it for you.

Suppose there were no more Advertisements

Just imagine for a minute
that some power could stop
all advertising. How would
that affect you?

It would cut you off from
all direct, commercial news
about things you need and use
in your every-day life. Some-
body might be selling a new,
better, more economical food;
or a utensil that would save
money and time; or an article
that would add greatly to
your comfort and well-being;
or some better material for

making shoes or clothing--
but you would never know it.

Merchants and manufac-
turers would be unable to tell
you about new and better
things. They would thus find
it hard to put these things on
the market, and often would
not try.

Merchants, unable to tell
you what they had to offer
you, could not take the risk
of buying goods for which
they might have no custo-
mers.

"It pays to advertise." And advertising pays not only
the advertiser and publisher, but PAYS YOU TOO.
It keeps you informed about the things you need in
order to live a profitable, happy and useful life in this
age of progress.

CLASSIFIED WANT ADS

Classified advertising will be charged for at the rate of one cent per word each insertion, with a minimum charge of 15c for first insertion. The little want adv. is the biggest puller in the world for securing help, selling anything you may want to sell, renting out your property, securing rooms, etc., and gets results immediately.

AMERICAN SOLDIERS ATTENDING SCHOOLS

PARIS, April 22.—(Correspondence of The Associated Press).—Uncle Sam is now a fully certified schoolmaster with about 200,000 khaki-clad pupils. This is the result of the establishment of the Educational Corps of the United States army to provide training for vocations and academic instruction for young men in the army.

The Educational Corps is under the direction of Brigadier General Robert I. Rees, who militarized the American colleges last fall. Under him is an executive commission of three educators, Dr. Frank E. Spaulding, superintendent of schools in Cleveland; Dr. John Erskine, Professor of English at Columbia; and Dr. Kenyon L. Butterfield, President of the Massachusetts Agricultural College. In all about 7,500 instructors, including a number of men of high standing in American education, are teaching the American soldiers the way to progress. Everything from a, b, c to university subjects and from stenography to engineering is included within the curriculum of this great and unique college.

The army schools were in full operation by January, equipped with \$1,500 worth of books specially ordered from America and provided in part by the American Library Association. But there has been a shortage of books and often one book has had to serve for a whole class.

Many hundreds of army schools have been established throughout France wherever there are enough

American soldiers to warrant. General Pershing's order required a post school in every place where 2500 or more men were stationed and as the schools had to be opened at once all sorts of queer places, from cafes to igoonasteries, were used as schoolrooms, until regular quarters could be provided. The soldiers are studying in barns, stable lots, aerodromes, army barracks and in one case in a convent. Meantime the army is endeavoring to provide adequate quarters and sufficient books for its 200,000 students. In cities like Coblenz, the city school buildings are used without interfering with the regular school life of the children.

These post schools may be termed the primary schools of the army educational system, though this is inexact as in many of these schools more advanced education is being given to officers and men who are unable to leave their posts and attend the divisional schools or the university. The men attend these post schools after their regular day's work.

Then every division has a high school centrally located with better accommodations. Some 30,000 men are attending such high schools. Then comes the big army university at Beaune which will accommodate many thousands of students. Besides there is about 8,000 officers and men attending French universities who have hospitably thrown open their doors to their American friends and 2,000 more are in English universities. These universities students are all men who have had at least the equivalent of two years in college.

Obviously few men can be detached from their own units to attend these universities but the post school does not interfere with military work but is available to every sol-

dier and thus has an important place in the educational system.

The breadth of the work in the post schools being done is astounding. Men who cannot read or write are to be found studying in the same room with college graduates who are working for advanced degrees. There is a chance for everybody. The list of subjects taught would fill a book but here are a few to illustrate Algebra, calculus, geometry, trigonometry, economics, literature, French, German, Italian, Spanish, agriculture, automobile repairing, baking, barbering, bookkeeping, arithmetic, business English, business forms, carpentry, cobbling, commercial law, cooking, horseshoeing, surveying, mechanical drawing, road construction, salesmanship, stenography, typewriting, tailoring, telegraphy and telephone repair.

For illiterates schooling is compulsory, for the great bulk of the army it is elective.

DAYLIGHT SAVING LAW ISSUE IN HOUSE BATTLE

WASHINGTON, May 29.—Supporters and opponents of the daylight saving law were prepared today for a sharp fight on the floor of the house over proposed repeal of the act. Representatives from Agricultural districts were aligned against those from manufacturing centers, the former having gained the initial advantage by getting the proposal considered as a part of the \$32,600,000 agricultural appropriation bill.

SUMMER NORMAL TO BE BEST YET

PRESIDENT J. M. GORDON TELLS OF THE PLANS AND PROSPECTS FOR LARGE AND SUCCESSFUL TERM.

The summer term of East Central State Normal School just opening promises to be one of the most interesting of any in the history of the institution. While we are not able to tell definitely what the enrollment will be, due to the fact that many people are going into other lines of work, we have every reason to believe that the enrollment will be very satisfactory. Students have been coming in for the past three days, and tomorrow will see a large number come in. Many rooms have already been engaged and the outlook from an enrollment standpoint is very satisfactory.

During the summer term we shall deal in a very large measure with post-war problems, and they are many. Some of the most noted educators of America will be with us from one of five days during the summer term. The teachers of the district who are coming to work with us are coming brim full of enthusiasm, ready to contribute their full share to the success of the term.

Miss Anna Weaver Jones, who had charge of the physical training for women last summer will be here again. Her work last summer gave a new meaning to physical training for women and plays and games in school work. More emphasis will be laid on plays and games than ever before.

We feel especially fortunate in the manual training that we shall offer through the summer. While we are not saying that the man who will have charge of this work is better than Mr. Ericson, at the same time, as Mr. Ericson is away for the summer we are exceedingly glad to have him recommend a man from Stout Institute who will have charge of the work—Professor Lea E. Biddick. Mr. Biddick is a graduate of Stout Institute, has had nine years of experience as manual training teacher, and brings the highest recommendations. He will be here ready for work Monday.

A practical course in Red Cross work for which credit will be given will be offered this summer for the first time. A practical nurse will be furnished by the national organization. Her salary will be paid by the Normal School and her local expenses by the local Red Cross chapter.

More attention will be given this summer than ever to chorus and orchestra work. Credit will be given for this work during the coming summer just as it is for the regular year. Miss Keller and Miss Campbell, of Henryetta, will do the chorus work, and Mr. Cruz will do orchestra work. A musical program will be given near the close of the summer term that will prove interesting to the school and town.

The faculty for the summer term follows:

- Education. M. L. Perkins. P. W. Swartz, Lindsay. N. S. Cowart, Holdenville. Miss Esther Hunter, Nashville, Tennessee. Miss Anna C. Paxton. Miss Stella Watson. Psychology. C. G. Bradford. A. P. Lever, Coalgate. English. M. B. Molloy. Irma Spriggs. L. W. Courtney, Oklahoma Baptist University, Shawnee. Supt. J. T. Butcher, Pauls Valley. Principal E. P. Downing, Shawnee. Miss Bess Dunn, Seminole. Mathematics. R. S. Newcomb. Miss Kate K. Knight. Supt. T. D. D. Quaid, Tishomingo. Supt. B. R. Grissom, Davis. History. R. G. Sears. Supt. O. E. Davis, Roff. Agriculture. B. A. Pratt. Supt. S. C. Herrin, Purcell. Chemistry and Physics. R. R. Robinson. Biology. E. A. MacMillan. Commercial Branches. A. Stauffer. Public School Music. Miss Emma K. Keller. Miss Bernice Campbell, Henryetta. Public School Art. Miss Ida Hoover, Norman. French. M. L. Perkins. Latin. P. W. Swartz. Spanish. A. Cruz. Manual Training. Lea E. Biddick, Menomonie, Wisconsin. Physical Training. Miss Anna Weaver Jones, Sherman, Texas. Red Cross Work. To be supplied. Emma E. McClure, Registrar. E. C. Wilson, Librarian. Ancients Made Bricks to Last. In the British museum are bricks taken from the buildings in Nineveh and Babylon, which show no signs of decay or disintegration, although the ancients did not burn or bake them but dried them in the sun. SOLDIERS ARE LEARNING GOVERNMENT WILL HELP

WASHINGTON, May 29.—One of the difficulties the Federal Board of Vocational Education has encountered in its work of re-education is that of convincing disabled men of the generous aid offered by the government. That all expenses of retraining are paid and in addition the needs of wife and children supplied; that this is not considered a loan, but the payment of a just debt, and that their only obligation is to make good and useful citizens of themselves, seems too good to be true. But when the disabled soldier realizes that he is the beneficiary—not of public charity, but of national gratitude, he accepts the proffered offer of retraining with good grace. Already there have been 81,741

men to register with the Board, the Vocational Advisers have made contracts with 52,367 of these and 2,079 have started their training under the guidance of the Federal Board for Vocational Education.

Of the 4,376 cases approved for training by the Federal Board for Vocational Education over 1,200 of them have been approved for trade and industrial training, 846 for agricultural, more than 1,200 for commercial and business courses, about 850 for professional courses. Three hundred and ninety-two are taking academic training and 99 are studying in some special course.

The official report of the Georgetown University seismological station, Washington, D. C., shows that during the year 1918 there were recorded on the seismographs ninety-eight earthquakes. No disturbance of any consequence is tabulated as having taken place in the United States.

THERE IS A WORLD OF INTEREST IN READING ADVERTISEMENTS

Your daily newspaper is far brighter and more interesting for the advertisements it contains. You get information from them. You learn all about many little things that are of so much personal importance in your life. They keep you posted. They tell you what is new and desirable.

Sometimes they keep you from making an unwise purchase by pointing out just the reasons why one article suits your needs better than another.

Reading advertisements helps you to economize. You know that economy is not alone a matter of saving money but of spending money to advantage. Advertising identifies goods of unquestioned value.

When a store or manufacturer puts a name on goods and tells you about them you may be sure they are worth while because it does not pay to advertise merchandise that is not good.

Make a practice of reading advertisements. Read them as news from the business world published for your benefit. They will help you to live better and dress better and make more of your income in every way.

SPRING FEVER

Following Colds, Grippe, Thin, Watery or Poisoned Blood

(By DR. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, is Doctor Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

Occasionally one should "clean house" with castor oil or tiny pills made up of the May-apple, leaves of aloe and jalap, and sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets.

San Marcial, N. Mex.—"I suffered for two years with frequent headache and pain in my left side and the small of my back. I was dependent and so nervous the least little racket would upset me. I wrote to the Specialists at the Invalids' Hotel, and was advised to use Dr. Pierce's Golden Medical Discovery and the medicine I did so and immediately began to get better. My symptoms disappeared and in two months' time my health was regained. I took six bottles of each medicine and a few of the 'Pleasant Pellets' for regulating my bowels. I am now in perfect health and enjoying life.

"I cannot say too much in praise of these medicines and the kind and courteous attention given me."—Miss Mamie Cogland.

NEW BETHEL ITEMS.

We are having some more rainy weather at present. The farmers are getting behind with their work.

Our Sunday School has been rained out five Sundays in succession, but we hope it will not continue that way.

Mr. and Mrs. Theodore George of Tulsa are visiting relatives here this week.

Willie Walker and little son Ewel spent Sunday afternoon with Mr. and Mrs. Dave Chandler.

Miss Bertha Sparkman spent Sunday night with Miss Minnie Hart.

The singing at Clarence Chandler's Sunday night was not very well attended on account of the rain. However, those who were present report a good singing.

Mr. and Mrs. Jess Daniels spent Sunday with her mother, Mrs. Dave Chandler.

Mrs. Stetson and family spent Sunday with Mrs. Armstrong and family.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit.

The kidneys are the most over-worked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL, Haerlem Oil Capsules, imported direct from the laboratories of Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

THE USUAL THING.

"Ah, Sister Smallways," began Rev. O. Goode Evans, who was making a pastoral visit, "when spring comes, don't you know, I fancy we all hear the call of the wild, and—"

"Thunder and guns!" howled an agonized voice from three rooms beyond. "Great Godfrey's cordial! Ethel, come quick!"

"Mercy! What was that?" asked the clergyman.

"The 'a. a. the wild,' replied the housewife. "My husband is taking down a stove."—Kansas City Star.

Interpreting the Bard.

"What's Professor Diggs doing these days?"

"He says he's indulging in a Shakespearean orgy."

"Ah! A mild form of dissipation."

"Not in Professor Diggs' case. He never dips into one of Shakespeare's plays without first fortifying himself with a dozen volumes of critical comment."

JOKES.

"Casey is me pertickeler friend, si have ye know."

"G'wan! If he was pertickeler, he wouldn't be yer frind."

Wept a Profitear.

There was a man in our town, Who had one war-time fear; That he couldn't keep the price wedged up, So he wept a profitear.

Diplomacy to the Winds.

Kid—Paw wants to know, Mr. Jones, if you'll trust him for a 15-pound turkey till pay night?

Butcher (amazed)—He didn't say that?

Kid—Well, not exactly. All he wants is two pounds of pork sausage, but I thought I'd begin high and then come down bit by bit if you proved stubborn.

Such Is Life.

"Man is a creature of routine. Goes to work and then goes home."

"That's right. If Shakespeare were to come along we'd be glad to see him, but what would we do with him?"

"Dunno. Get him to autograph the family volume of his plays and then close the book."

Drew a Dummy.

Hostess—I'm sorry you found Miss Biggle a poor conversationalist.

Jack—Poor conversationalist? She's absolutely the limit! Why the only thing she said to me the entire evening was "no," and I had to propose to her to get her to say that.

Redeeming Trait.

She—At least, there is one thing to the credit of Ananias.

He—What is that?

She—When he was caught in the act of lying, he didn't say he couldn't help it; it was all Sapphira's fault.

Her Idea.

"Don't you think it is extravagant in you to buy both yourself and your husband gold-handled silk umbrellas?"

"No; I am doing it on the economical principle of putting up something for a rainy day."

A Practical Example.

"Inconsistent, I call it. The editor asked me to write a strong article on the conservation of white paper."

"For his magazine?"

"Yes."

"Well?"

"Now he turns it down just because I wrote on both sides of the sheets."

A BUGVILLE JEST.

Snail—I've been tracing up my ancestry.

Bug—Originated in Philadelphia I suppose.

Present Soon Be Past.

Don't worry about the future, The present is all thou hast; The future will soon be present And the present will soon be past!

Looked That Way.

"Edith, that young man has been calling on you now for over a year. Isn't it about time he was breaking the ice?"

"I don't believe he intends to break the ice—he's going to wear it out."

Strange Stuff.

"Truth is stranger than fiction."

"Think so?"

"I know so. I've just been listening to the line of stuff they hand out for gospel truth in a Pullman smoking compartment."

Inevitable Outcome.

Husband—When the men came about the house fittings, what happened?

Wife—We had a heated argument over the furnace.

DOCTORS SAY THE NEW CALOMEL IS BEST MEDICINE

New Variety, Called Calotabs, is Purified and Refined From Nauseating and Salivating Effects—Medicinal Virtues Retained and Improved.

According to the world's greatest physicians and medical authorities, calomel was the best and most universally useful of all medicines. Medical authorities prescribed calomel for almost every disease and explained that it was the best and surest of all system purifiers. They say that calomel cleanses the liver, stomach, bowels and kidneys and purifies the blood from all poisons, making the system pure and clean so that nature can quickly restore the health.

Now that science has purified calomel of all its nauseating and dangerous qualities, the new kind of calomel, called "Calotabs," is even more popular than the old. As a liver-cleanser and system purifier Calotabs are more effective than the old style calomel, yet are entirely delightful in effect. One Calotab at bedtime, with a swallow of water—that's all. No nausea, no salts, nor the slightest unpleasantness. Next morning you awake feeling fine with a hearty appetite for breakfast. Eat what you please and go where you please—there is no restriction of habit or diet or danger of salivation.

Calotabs are sold only in original sealed packages, price thirty-five cents. Your druggist recommends and guarantees Calotabs, and will refund your money if you are not delighted with them.—(Adv.)

Prominent educators in this line of work expected to attend the conference are Dr. George A. Works, head of the department of rural education of Cornell University; Dr. Rufus W. Stinson, State director of vocational education, Massachusetts; C. V. Williams, Federal agent for vocational education, Kansas City.

A FOOL AT 40

It is an old proverb that every man is either a fool or a physician at 40. Well I fooled along for 40 years in the drug business and practice of medicine before I perfected a blood medicine that I thought and knew I could offer the public with impunity.

I have perfected "Number 40 For The Blood," and to show you that I do not wish to fool you I will send you your money by mail if you return the front of the carton with the statement that you have tried one bottle of "Number 40 For The Blood" without satisfactory result for any scrofulous disease, for blood poison, chronic rheumatism, malaria, chronic liver and stomach trouble, constipation, or in fact any disease for which it is recommended. Hardy Chinese Ponies.

The Chinese horse is really a pony somewhat after the type of the western broncho. It comes from Mongolia and is known as the Mongolian pony. It is an exceedingly hardy animal. thrives on food on which a western animal would starve, is able to carry heavy loads long distances, and is very useful in many ways. As a racing animal it is characterized by speed and stamina. China exports between 1,500 and 2,000 of these ponies each year.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. DADDY'S EVENING FAIRY TALE BY MARY GRAHAM BONNER

THE STONE LIONS.

"Well Comrade, how do things strike you these days? And how have you been feeling of late?"

"Why do you call me comrade?"

"You can't answer a question by asking another," said the first speaker. "But I will tell you. I call you Comrade just as I would call you Companion or Chum or Pal. You are always here with me. We are always together. So we are friends."

"Well," said the second speaker, "we can't very well help that. We're great stone lions and we were put in front of this big building to add to the beauty and dignity and stateliness and grandeur of this building."

"Fine words you are getting off," said the first stone lion. "But what do they all mean?"

"They all mean," answered the second lion, "that we add in beauty and in splendor to the building. They mean we're great stone lions and we're worthy of being put in front of such a building. For, do you know what the building is?"

"What is it?" asked the first lion. "I think I know, but I would like to have you tell me."

"It's a library. Many people, old and young, come to read books. They

come to take away books to read at home on cozy nights like this when it is so snowy indoors. They bring books back which they have read and they also bring books and magazines which they own themselves so the library can send them off to others who haven't all the books and magazines they should have."

"It has always made me feel as though I should act in a very wise manner. I have tried to make my face look solemn and as though I would tell no secrets, but that deep within me I know so much, so much."

"Yes, I have been right in what I have thought," said the second lion. "And I too have tried to look wise and important, for though folks read books which give them pleasure and though they read funny books and laugh, still the great idea of reading to my stone mind is to make one wise. And it looks so interesting to be wise."

"We may never say anything which is bright, we may never say anything at all. But oh, to look wise, that is the great thing."

"You're right," said the first lion. "And it is because we both look wise that I call you comrade and companion and pal and chum. I almost might call you twin brother."

"I'm sure you might," said the second lion, "if you are going to honor me with all other titles. In fact I think I have a twiny feeling for you. I look and I feel and I act the same way and now the snow is falling down on my nose and my eyes and my paws in just the same way."

"Then Twin," said the first lion, "tell me how you have been feeling of late. Just the same as I have been feeling? Well, and strong, and interested in everything about even though we must still wear our wise expressions?"

"Just the same," said the second lion.

"And how have things struck you?" asked the first lion.

"Well, at present the snow is striking me, very softly though, and I feel that in the morning I will look quite absurd, a dignified stone lion covered with snow! But things have struck me as being mighty fine these days."

"I've seen people working for great and mighty causes. I've seen children doing the same. I've heard them make speeches and ask people to give to things that were well worth giving to, Lion Twin. And I've thought it was magnificent."

"It has been splendid to sit in front of this big building and to see the people of the great city march by all day long in endless numbers. They have looked so gay and so happy and yet these same people can be serious. They can work and give and sacrifice. They can read and study and they can work and play and make others happy."

"Oh, it's fine to sit here and see what splendid creatures men and women, boys and girls are!" ended the lion.

The Difference.

Three-year-old Mary Ellen had just received a new doll from her auntie. She tried to voice her thanks. "Auntie is pretty," she cooed.

But six-year-old Joseph was not so inclined as to opinion. "No, Mary Ellen," he corrected. "Auntie isn't pretty. She's just good."

The White Year

By OTILLIA FRANCES PFEIFFER

(Copyright, 1919, by Western Newspaper Union)

At the age of twenty-two, acting under an impetuous impulse he could not restrain, Walter Merrill wrote a letter to the girl he loved, confessing his affection and asking that she award him happiness or heartbreak according as she reciprocated his fervent devotion or did not, as the case might be. There came no reply. As if utterly disdainful of his plea, he learned that Myrtle Farr had started away on a visit to a relative at some distance. Merrill was a being of deep sensitivity. He vanished completely from Bayville and his motive and whereabouts became a mystery to his former friends.

His gloomy face made no new friends, his half-hearted interest in seeking employment discouraged attention. Very soon his surplus money was gone. Idleness led to dissipation. He sank lower and lower, and at the end of a few months was a street wanderer and his companions men of reckless mold.

His eyes were bleared, his clothing in tatters, his gait unsteady, as one day crossing a street the sharp toot of an automobile horn caused him to look up. Two ladies in the machine were agonizedly screaming to their chauffeur. Directly in the path of the auto a little child was rolling her doll carriage. Merrill made a leap. Not a second too soon he snatched the imperiled child from her position, swung her spinning to one side, and himself stumbled and fell.

There was a contact, dull and deadly, and Merrill disappeared under the body of the vehicle. Then as it backed he lay in a pool of blood, his face bruised and cut, his eyes closed and his body rigid.

It was like a transition into a new sphere to the injured man to recover sensibility amid comfort and cleanliness. He was alone in bed in a half-darkened room, but the door communicating with the adjoining apartment was ajar and he could discern that several persons were there. A feminine voice spoke, gentle and quite anxious.

"He will live, doctor?" it intoned.
"Oh, yes, there is nothing wrong of a serious nature outside of the lower part of both limbs."

"He can bear removal to a hospital," began the doctor.

"No," spoke Miss Althea Darrow, and the negative was enforced strongly by her sister, Marcia. "We owe to this man not only money reparation, but sympathy and care. He is poor, perhaps homeless. Sister and I will give him a home until he has entirely recovered."

Some new emotions came to Walter Merrill as he heard himself thus commended. He learned that the two spinsters were ladies with means, given to deeds of charity. They lived well, and as he got about in an invalid's chair, a room on the ground floor was fitted up for him. Daily he was wheeled out into the garden. Everybody seemed glad to be of help to him. Kindness toned down his ruggedness and reckless indifference.

At first, until his injured limbs recovered their original strength Merrill acted as chauffeur for his thoughtful patronesses. Then his quick intelligence recommended him to them for a trustworthy position of looking after their property. He attended to rents and repairs, and nothing was pleasanter than the frequent trips from place to place, and very often the little child whose life he had saved was his welcome companion.

One day—Walter Merrill never afterward forgot that eventful occasion—on a business mission he came within a few miles of Bayville. The temptation to see the old town was irresistible. He was driving the machine slowly down a tree-shaded street, when a lad of about sixteen abruptly darted from the sidewalk, shouting his name.

"Oh, Mr. Merrill!" he hailed. "Please—please, just a moment." Then he added breathlessly: "Oh! you must come to our house right away. Alice wants to see you, and at once."

Merrill well remembered Alice Wayne. She had always evinced a predilection for his company, but love he had never thought of. Merrill wondered at the earnestness of the excited lad. He drove the machine to the Wayne home. His guide led him into the house. Merrill was shocked as he saw upon a couch the girl who had been a blooming beauty when last he had seen her. Disease and suffering had wasted her away, and death was in her face.

An infinite relief was expressed in that wan face as Alice Wayne clasped the hand of Merrill fervidly. She sent her brother from the room. Then came a confession that amazed her visitor. Alice confessed that she had destroyed a letter Myrtle had given her to mail, the non-arrival of which had started him upon the downward path. When a fatal disease had overcome her she had suffered from incredible remorse. She had sent for Myrtle and had confessed the truth. Now, with feeble breath she insisted on sending for her girl friend that the great wrong she had wrought should be mended.

All along Myrtle Farr had loved and mourned for Merrill. His confession soon brought about a perfect understanding. Redeemed by his "white year" Myrtle Farr had no fear to deter her from trusting her happiness to his loving care.

STOMACH GOOD AS NEW. FOUR DOCTORS GAVE HER UP

Mrs. Hendricks, Bedfast Five Months, Was Able to Work in Two Weeks.

"I was sick last winter for five months with stomach and bowel trouble. Could not turn myself in bed without help. I was under the care of four doctors, and they gave me up. Then Mr. Mills, the druggist persuaded my husband to try a bottle of Milks Emulsion. I had only taken it two days until I was sitting up in bed, and in two weeks I was doing my own work. When I began taking it, I weighed only 70 pounds; now I weigh 190 pounds."—Mrs. Mary Hendricks, 900 Litchfield Road, Owensboro, Ky.

Thousands of people who have suffered for years from stomach and bowel troubles, have found relief, as Mrs. Hendricks did, almost from the first dose of Milks Emulsion. And it isn't merely temporary relief, but real, lasting benefit.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Gwin M & Mays Drug Company. (Adv.)

M. A. Waits, who operates the leading drug store of the city at 107 East Main Street, told a group of his friends that after his father went broke on his crop of macaroni, the family was so reduced in circumstances that he decided to get out and try life away from home. He went forth a wanderer on the face of the earth, lonesome, lonely and forlorn—as well as broke. He picked up a pal on the road and they journeyed on together. Late in the evening they arrived at a farm house and told the good lady a tale of woe and out of kindness of her heart she gave them an apple pie. They repaid to the shade of a nearby friendly railroad trestle and decided to play a game of poker for the pie. Waits said his pal had a very poor hand, but thought he would be able to bluff Waits out; so he bet a million to start on. Waits promptly called him and bet him a billion more. His pal called and raised a trillion. Waits then bet him seven quadrillion and his pal, with a look of intense disgust, said "take it you D—M educated cuss!" 5-29-11

SOCIETY

Pres. and Mrs. Gordon Entertain.

The beautiful new home of Prof. and Mrs. J. M. Gordon was the scene of a delightful reception last evening complimentary to the Senior Class of 1919, the Normal faculty and their families.

Miss Turner received the guests at the door and presented them to Prof. and Mrs. Gordon, Prof. and Mrs. Perkins, and Prof. R. R. Robinson representing the faculty and Misses Della Overturf, Mary Gillette and Mr. Oather Van Meter representing the class. Misses McClure, Spriggs and Gordon showed the visitors through the new home which was tastefully decorated throughout in white and green, the class colors. The color scheme was carried out in potted plants and cut flowers.

The program for the evening consisted of several contests, the most interesting, perhaps, being the musical contest on the piano. Mr. and Mrs. Cruz and Miss Curry gave several instrumental and vocal numbers which were greatly enjoyed. Mrs. Stauffer and Miss Barrow each gave readings being generously applauded by their hearers. Miss Knight conducted the conundrum contest which was jolliest of all the program.

Delightful fruit punch was served throughout the evening and Miss Spriggs operated the Victrola when the guests were not being entertained in some other interesting manner.

At a late hour the guests were served brick ice cream, and cake in the colors, green and white.

Before departing the crowd sang together such beautiful hymns as "Kentucky Home," "Swanee River" Etc.

GUY WOODWARD GETS COVETED APPOINTMENT

Guy Woodward, who is now attending the University of Oklahoma, will spend the summer in New York City, studying Y. M. C. A. work, according to a letter received today by his father, L. H. Woodward.

The letter is from P. G. Phelps, executive secretary of the National War Work Council at Norman. Only one man was selected from Oklahoma and he is to represent this state and the schools of the state.

In reference to the appointment, Mr. Phelps writes: "In selecting the fifty men from the entire United States, instructions were rigid that the men must show exceptional qualities of leadership; for these men are expected to be the national leaders during the next generation. "These courses are being given in Sociology by the greatest men along these lines in America. The school opens June 30 and closes August 20. All of the expenses of these fifty men are paid while they take this course in New York."

Not a Summer Resort.

Very few Europeans are able to live in Hyderabad, India, during the summer, and the stalwarts who manage to endure the awful heat do not venture out of doors during the middle of the day at all. The white troops stationed there are not allowed out of barracks from nine o'clock in the morning till five o'clock, or later, in the evening, as the scorching sun and desert heat have claimed many victims from sunstroke and heat apoplexy.

Ancient Bee Industry.

Some time back in the prehistoric era and probably antedating the time when mankind had tamed the wild bees and organized them in the business of producing "strictly fresh laid eggs," human kind had annexed the bee, or, anyhow, had made a business of robbing the wild bees. Bee farming is no new thing under the sun, but the bees were never before so carefully bred and cross-bred nor so intelligently assisted in the honey-making game as at present.

Removing Old Putty.

A great deal of scraping can be saved, when putty is to be removed, by brushing over it some nitric or hydrochloric acid and leaving it for an hour or two. A brush that is of no further use should be employed, as the acid ruins it. The putty at the end of the time will be found softened to such an extent that little more than a wipe is needed.

Some excitement was occasioned on Main street this morning by the actions of a dog thought to be mad. However, it was ascertained that he had been poisoned and was taken away by his owner.

THE CATHEDRAL OF ST. JOHN THE DIVINE

It might prove interesting to those who contemplate hearing Mr. J. Erwin Mutch Friday evening at the Methodist church, to know something of the history of the Episcopal Cathedral in which he is soloist:

This building is the noblest and largest church structure ever attempted by any denomination of American Christianity. The world itself contains only about four larger and perhaps hardly that many that are more costly.

As it stands today with only the Chancel, Choir and Crossing completed it easily seats fifteen hundred or more persons on the ground floor, while the nave or body of the church still is no higher than the foundation. This will give some idea of its proportions.

It has been some thirty odd years in building and no expense has been spared to make it the noblest monument to religion on the American continent.

Its purposes, however, are not those of a Westminster Abbey, which we think of mostly as memorial and mausoleum, but to be a modern, democratic institution, for the extension of Christ's kingdom, and even its symbolic and historic lines, its noble and majestic proportions, are never allowed to overrule its practical and prime purpose—serviceableness for our own and future generations.

Surrounding the pose—or chancel end of the building are the seven memorial chapels of the Tongues, in which services are held for the various nationalities in their native languages. In order that these chapels might be kept fully up to the architectural standard, it was stipulated beforehand that these were to cost at least \$200,000.00 each.

In such connection one rather refrains from mentioning costs—yet cost conveys its message. It is said that the bare crypt and foundations up to the ground level cost \$2,000,000.00, and what it will cost when completed perhaps is not yet fully estimated.

One of the purposes of the institution is that when fully completed the services will always be going on in the cathedral proper, or in one of its chapels at all hours night and day. So whatever be any man's working hours, he can always find some time for worship, if he desires it.

For years these plans for service to the nation and the people have been improved and revised so that when completed they will be as beneficial as can be devised.

Floyd-Carroll.

The marriage of Miss Emma Carroll to Mr. Dewey Floyd was solemnized Wednesday evening at 8:30 o'clock at the home of Mrs. Belle Carroll, mother of the bride north of the city, Rev. D. L. Hays of this city officiating. Only the immediate family and a party of friends were present on this occasion.

The bride has done several terms of work in E. C. S. N. where she has made many friends. She has taught two very successful terms of school, and is a very accomplished young lady.

The groom is well known here, being an industrious and energetic young man.

Mr. and Mrs. Floyd will make their home in Ada.

A few nice suits, coats and capes left at half price.—Burk's. 5-28-21

Regal Stay-Smooth Scarfs

New Summer Neckties

These Pick their Company if you please. You won't find them running around with every Tom, Dick and Harry for the patterns are exclusively for good dressers.

As we unwrapped their carrying case we instantly saw that they were not the usual run of ties, but we didn't add on anything to the price just because they were high livers.

\$1.00 and \$1.50
and if you like stylish neckwear you'd better get busy NOW and match up every shirt in your locker.

AMERICAN.

Elsie Ferguson is the star in the drama, His Parisian Wife. This is a story of the experiences of the wife the son brought from Paris and whose mode of dress was so displeasing to her mother-in-law from which circumstances some interesting developments grew.

LIBERTY.

The Passing Parade offer another intensely interesting program this evening. The picture program presents Edith Roberts in the drama A Taste of Life. Coming next week The Wonderful Revue, a company of feighteen people.

ROBERT WIMBISH, JR., HOST TO CLASSMATES

Robert Wimbish Jr., entertained on Tuesday evening at the home of his parents on 229 East Ninth, a number of his school and classmates. The house was beautifully decorated with sweet peas and smilax. The evening was informally spent in playing games and dancing. And so pleasantly were the hours whiled away that the clock chimed twelve ere the guests took their departure, declaring Master Robert Wimbish a most delightful host.
